

SYSTEM LED

The 4big Rack Office features three LEDs that provide information on system status. The following illustration indicates where the LEDs are located on the chassis.

1. Power LED
2. Ready LED
3. H. Disk LED

BEHAVIOR

The following table describes LED behavior.

LED	LED State	Indication
Power LED	On	Product is turned on.
	Off	Product is turned off.
Ready LED	On	Operating system has booted correctly.
	Off	Operating system has not booted.
H. Disk LED	Blinking	At least one drive is being accessed.
	Off	No drives are being accessed.
