

## 6. ADVANCED ACCESS TO YOUR LACIE CLOUDBOX

Advanced access to your LaCie CloudBox includes:

- [Access your LaCie CloudBox Dashboard Anywhere using LaCie MyNAS](#)
- [Download files via FTP](#)
- [Simplify local access using LaCie Network Assistant](#)
- [Map LaCie CloudBox folders on your desktop](#)
- [Exit sleep mode using LaCie Network Assistant's Wake on LAN \(WOL\)](#)

### DO I NEED THE LACIE CLOUDBOX ADVANCED ACCESS FEATURES?

Essential applications such as centralizing data and sharing files are available when you connect the CloudBox to your router. However, you can view, download, and manage your files with additional efficiency by taking advantage of the advanced access features.

### WHO CAN USE THE ADVANCED ACCESS FEATURES?

The advanced access features that focus upon Dashboard management are reserved for the administrator of the LaCie CloudBox.
