# IOS

## WELCOME

The media app helps you manage media and documents that you copy to compatible wireless and network-attached storage devices (NAS). It is available as an app for mobile devices or in a web browser. At home or on the go, use the media app whenever you want to enjoy your music, movies, and photos or, review important documents.

The media app supports a wide range of storage devices. However, your storage device might not support all the features documented in Help. Most storage devices present a Getting Started tutorial the first time you open the media app. Follow the tour to learn great tips on how to access and enjoy your content.

For information on software updates, FAQs, and support information, go to LaCie Support.
