

INTRODUCTION

Welcome to the user manual for the LaCie Mirror. Substantial in form, your LaCie Mirror is encased in reflective Corning® Gorilla® Glass 3. Impressive in function, it features SuperSpeed USB 3.0 for transfer rates up to 5Gb/s. Use the LaCie Mirror in your home or office. Its indelible form is certain to catch the attention of family, friends, and colleagues.

Use this manual to help you connect your LaCie product. If you have questions, consult the [Getting Help](#) page.

BOX CONTENT

- LaCie Mirror
- Wood stand
- Carrying pouch
- Cleaning cloth
- USB 3.0 cable (USB 2.0-compatible)
- Quick Install Guide

Note: A PDF of this user manual is pre-loaded on the hard drive.

Important info: Please save your packaging. In the event that the product should need to be repaired or serviced, it must be returned in its original packaging.

Software suite

The software suite for your LaCie Mirror is pre-loaded on the hard drive. The free suite of utilities includes:

- LaCie Backup Assistant (PC/Mac)
- LaCie Desktop Manager (Eco mode)
- LaCie Private-Public (protect data with AES 256-bit encryption)

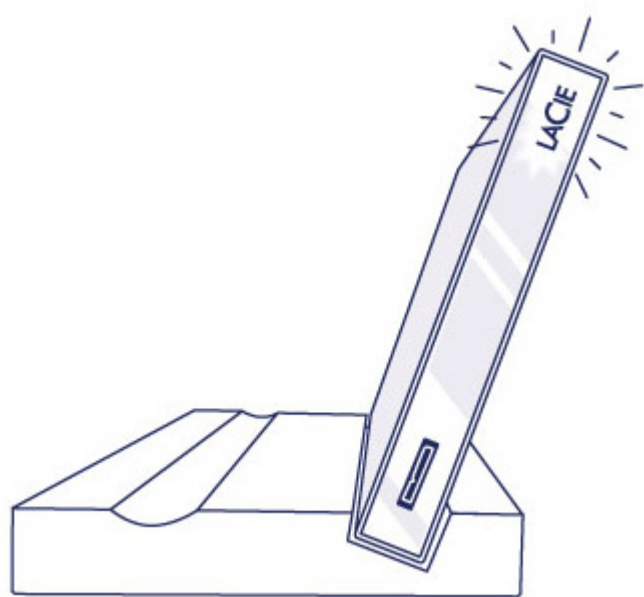

MINIMUM SYSTEM REQUIREMENTS

Your system must meet certain requirements in order for your LaCie product to function properly. For a list of these requirements, please refer to the product packaging or consult the product support web page at www.lacie.com/support/.

Note: For optimal performance, the device must be connected to a USB 3.0 host port.

STATUS LIGHT INDICATIONS

The LaCie logo is also a status light. It can be found on the side of the device. Refer to the table below for details.

Light behavior	Status
On and steady	The device is on.
Flickering	Data is being accessed.
On for 1 second, off for 30 seconds	The device is in eco mode.
Off	The device is off.
