UPDATING THE FIRMWARE

LaCie strives to enhance existing products, including occasional updates to your LaCie professional DAS's firmware. Make certain to check the support page for your product to check for firmware updates.

The RAID controller firmware can be updated using LaCie RAID Manager. When new firmware is available, download it from the LaCie website and follow the instructions below.

BACK UP BIOS

Storage	Property	Operation			
Storage Management		Create Array		Power-off Identify Mute Modify Restore	
Proce Acourt Management Control	Firmware Versi	Quick Create		2.0.3.1042	
	Boot Loader Ve	Update		2.0.0.0021	
	Driver Version	Backup		1.0.3.0012	
	Chip Revision ID			83	
	Vendor ID			1C19	
	Sub Vendor ID			1C19	
	Device ID			1	
	Sub Device ID			1	
	Port Count			8	
	Max PCIe Speed			5Gb/s	
	Current PCIe Speed			5Gb/s	
	Max PCIe Link			8X	
	Current PCIe Link			4X	
	Supported RAID Modes			RAIDO, RAIDI, RAIDIO, RAIDS, RAID6	

Before updating the firmware, it is recommended that you back up the existing BIOS. This is useful if a problem occurs during the update.

- 1. Select **Adapter** in the Storage pane.
- 2. Roll-over the Operation tab, and choose **Backup**.

The BIOS file name begins with BINFILE followed by the date. Check your Downloads folder.

Update the firmware

Storage	Property	Operation			
Storage Management	Create Array		Power-off Identify Mute Modify Restora		
Proce P	Firmware Versi	Quick Create		2.0.3.1042	1
	Boot Loader W	Update		2.0.0.0021	
	Driver Version	Backup		1.0.3.0012	
	Chip Revision ID			83	
	Vendor ID			1C19	
	Sub Vendor ID			1C19	
	Device ID			1	
	Sub Device ID			1	
	Port Count			8	
	Max PCIe Speed			SGb/s	
	Current PCIe Speed			SGb/s	
	Max PCIe Link			8X	
	Current PCIe Link			4X	
	Supported RAID Modes			RAID0, RAID1, RAID10, RAID5, RAID6	

Important info: Make certain that the file downloaded from LaCie has been unzipped before following the steps below.

- 1. Select **Adapter** in the Storage pane.
- 2. Roll-over the Operation tab, and choose **Update**.
- 3. Click on **Choose File** and browse to the location of the firmware image.
- 4. Choose Update.

The update can take several minutes. You may be prompted to restart the LaCie device.
