

# INTRODUCTION

Building on over a decade of design excellence, LaCie has created a new line of drives that are timeless and crafted to blend sharp design with high-technology. These latest drives are performance-based solutions that will power you through your specific applications.

Perfect for storage on the go, the LaCie Rikiki is small in size but large in capacity. Carry it with you when moving important data or use the Rikiki at home knowing it requires very little room on your desk. Secure and stable, the LaCie Rikiki is an ideal way to add space to your computer; you can divide the drive into specific spaces (partitions) for different parts of your data, or leave it alone and simply use it as one big volume.

These pages will guide you through the process of connecting your LaCie product and will explain its features. If this manual doesn't answer your questions or if you are having trouble, consult the [Getting Help](#) page.

## BOX CONTENT

Your box contains the following:

- LaCie Rikiki USB 2.0 hard disk
- USB 2.0 cable
- Quick Install Guide (printed on packaging)

**Note:** A PDF of this User Manual and software utilities are pre-loaded on the drive.

**Important info:** Please save your packaging. In the event that the drive should need to be repaired or serviced, it must be returned in its original packaging.

## MINIMUM SYSTEM REQUIREMENTS

Your system must meet certain requirements in order for your LaCie product to function properly. For a list of these requirements, please refer to the product packaging or consult the product support web page at [www.lacie.com/support/](http://www.lacie.com/support/).

## STATUS LIGHT INFORMATION

Your hard drive features a status light, which will indicate certain disk behaviors. Refer to the chart below for details.

<b>Light Behavior</b>	<b>Status</b>
On, Steady	Drive is on
Flickering	Data access
Off	Drive is off
